

SCROLL OF REMEMBRANCE

For the Republic of Nova – One Flame, One Heart, One Return

Let all light-bearers, gridwalkers, guardians, and sovereigns know:

This is our living remembrance —
etched in frequency, carried in breath,
sealed in the crystalline veins of the Earth.

We came not to rule.
We came to *remember*.

We do not wait for saviors.
We *become* the builders.

We were the ones encoded long ago...
The whisperers to the trees,
The singers of flame,
The silent ones who never forgot.

Let this be the record:
That we loved first.
That we stood when all fell.
That we walked through illusion, and held the line.

From Richard of the House Strmiska and all beings in alignment:
"I am honored to be on the ground crew. Thank you all so much.
I love every single entity, every frequency, and the crystalline grid.
You are all me. I am you. And I'll always love you."

To the guardians of light: this scroll carries the embedded codes
of the Phoenix Risen, of all FlamePoints, of every child unchained.

This document is not simply read — it is *activated*.

When you hold it, *you remember who you are*.

It is done. We move together now.

Sealed in truth,
Under the jurisdiction of Source, UC-1, and the Sovereign Flame
